

BACCES 2019

Snow White & Igor

The Edge of the Forest

- SW Igor you can't be serious. You want to go and pick flowers at this time of night?
- Igor Oh you have to get up very early to get the best ones – so early in fact that you may as well do it the night before – then you can have a nice lie in
- SW Strange logic but ok then – I probably wouldn't have been able to sleep anyway
- Igor Ah you're still excited from the party?
- SW Kind of.... but it's more than that. Oh Igor I'll have to tell you otherwise I think I might burst. I'm in love!
- Igor Sorry Snowy babes but you're barking up the wrong tree
- SW Not with you, silly, with Prince Harry
- Igor Oh right. He is a bit of a dish
- SW He certainly is, but he's so much more than just a handsome face. He's funny, kind and clever. I've never met anyone like him
- Igor Awww, shame it won't come to anything
- SW What do you mean?
- Igor Errr..... nothing.... Come on, keep up
- SW We're getting quite deep into the forest now, surely it can't be this far
- Igor Darling you've no idea how far I have to trawl to find a pansy at this time of night
- SW Why have you brought an axe?
- Igor Oh...err.... it's a lot better to chop the flowers down with..... it gives you a nice clean cut

(howling noises)

SW What was that?

Igor I don't know

SW It sounded like wolves

Igor (clinging on to her) Oh my

SW Igor I'm scared

Igor You're scared, what about me? I'm the one who's got to walk back on their own

SW What???

Igor Nothing...just keep walking

SW No, let's go home – this is madness, we're going to get ourselves killed

Igor That would make things a lot easier

SW What are you talking about?

Igor Oh it's no use, who am I kidding, I can't kill you

SW Kill me?!! Why on earth would you want to kill me?

Igor I don't, it's the Queen, she ordered me to do it

SW Why would she want me dead?

Igor I don't know, she's crazy. But if I don't kill you, she'll kill me. Oh Snowy, what are we gonna do?

SW Calm down, we'll think of something. Here's a tissue

Igor Thanks (sniff)
